Thun, Switzerland – February 26, 2025

Bondholder meetings approve amendments proposed by MBT Systems GmbH and Meyer Burger Technology AG

Bondholder meetings for the 2027 and the 2029 convertible bonds, each issued by MBT Systems GmbH and guaranteed by Meyer Burger Technology AG, were held today.

Bondholders representing 82.55 per cent of the 2027 convertible bonds participated in the meeting for the 2027 convertible bonds. 100 per cent of the bonds represented at that meeting voted in favor of the proposed amendments, exceeding the required threshold.

Bondholders representing 82.11 per cent of the 2029 convertible bonds participated in the meeting for the 2029 convertible bonds. 100 per cent of the bonds represented at that meeting voted in favor of the proposed amendments, exceeding the required threshold.

The amendments enter into force on February 26, 2025.

For further details on the amendments, please refer to the respective convertible bondholder invitations, each published on <https://www.meyerburger.com/en/investor-relations/debt-investors> on February 19, 2025.

About Meyer Burger Technology AG

www.meyerburger.com

Meyer Burger researches, develops and produces highly efficient solar cells and solar modules of the latest generation based on the patented Heterojunction/SmartWire technology. As one of the few manufacturers worldwide, the company also develops its own equipment, which ensures high quality and efficiency in production.

Meyer Burger's headquarters are located in Thun (Switzerland). The company operates a research center and an equipment site in Hohenstein-Ernstthal (Germany). The highly automated production of solar cells and solar modules takes place in Thalheim (Germany) and in Goodyear (Arizona, USA). The company has its own accredited test center for solar modules in Freiberg (Germany). This is the key to the durability and high precision of Meyer Burger solar modules.

Meyer Burger was founded in Switzerland in 1953. Since then, it has developed and patented numerous technologies that are now used in many of the solar modules produced worldwide.

The registered shares of Meyer Burger Technology AG are listed on the SIX Swiss Exchange under the ticker MBTN.
